Introduction: For empowering and skill development, of the students support and progression call under IQAC, Marangi Mahabidyalaya (Degree) organised a Fifteen Day (15) training [programme on Cutting and Knitting. To organise this programme, we take permission from our principal sir and after his kind confirmation, we have decided to organise this programme from 11th December to 28th December 2021.

Objectives of this programme: Objectives of this programme are -

- To facilitated the earning source of the girl's students along with their regular educational classes.
- 2. To empower the students economically with less consuming capital.
- 3. To provide free training facilities to the rural and poor students of our college.

For empowering our students as well as to enhance their skill development, our cell has organised the cutting and knitting programme for 15 days in the year 2021 at the college campus. In this programme we invited training instructor Noyani Borah. And fruitfully trained our students on Blouse cutting, Peticotts cutting, and kurti's as well as trained the students how to stitch the falls etc. She successfully ended this programme with the full support of our students and with support of our principal sir to organise and carry our programme successfully.

Findings:

- This programme really encourages our students (girls) on the basis of their attendance. And they opined that through this training, they acquired extra knowledge on cutting with less capital.
- According to the girls, the training programme is the best opportunity for them to self empower through cutting wearing on cutting blouse pettekut, as well as stitch the sari's falls.
- 3. They also opined that due to the busy schedule of their CBCS syllabus, the time of training programme became short. If they provide more time for such type of self employment programme then they will be really self employed which indirectly help to fulfil their basic day to day needs.

Conclusion: we are really thankful to our authority for arranging such type of programme which greatly helped our girl's students for strengthen their economic condition. Our college is situated in a rural area and lots of students are belonging to the below poverty line. Therefore, the students support and progression cell under IQAC successful in organising such type of programmes for student's benefits along with their time bound CBCS course.

Introduction: Yoga improves strength, balance and flexibility. Slow movements and deep breathing increase blood flow and warm up muscles, while holding a pose can build strength. Yoga is an ancient practice that involves physical poses, concentration and deep breathing. A regular yoga practice can promote endurance, strength, calmness, flexibility and well being. Yoga is now a popular form of exercise around the world. Yoga as a practice has innumerable benefits that positively affects an individual both physically and mentally. Hence our education department has decided to conduct an Add on course programme for the students of our department and other departments so that they can learn the opportunities of Yoga.

Importance of Yoga:

The strengthening and lengthening effects of yoga can improve mobility and function, helping the body to recover from physical injury and the benefits for mental health can lead to improved sleep patterns and enhanced wellbeing, greatly improving your quality of life.

About the programme:

Apart from physical benefits, the incorporation of meditation and breathing yoga practices can help improve our mental well-being. Practising yoga regularly can create mental clarity and calmness, increase awareness, relieve chronic stress, relax our mind and dramatically improve our concentration. These benefits make us realise its benefits. Hence we call a yoga Guru from Vivekananda Kendra Numaligarh, for this programme.—

Conclusion:

Students can learn a lot from the programme .According to the National Centre for complementary and Integrative Health, Yoga is an ancient practice based on the philosophy of promoting physical and mental health that began more than 4000 years ago. Regular asanas helps discipline the mind and body, creating more balanced individuals who are able to take an active part in every day life. It helps reducing stress, improves focus and reduces the risk of various health conditions that occur due to improper diet and poor lifestyle choices. Moreover yoga and meditation do not have any side effects if done properly and under the guidance of an experienced professional.
