

CAMPUS DEVELOPMENT CELL MARANGI MAHAVIDYALAYA

Campus includes the buildings of the college and the land that surrounds them. A Beautiful campus encourages a healthy life style outside the classroom. A beautiful campus speaks to being a part of something greater than oneself. It can mean better grades. A well designed educational space may definitely heap to encourage better learning. Therefore there is a need of campus development cell in the college or any other institutions that look after the matters related to the campus of the institutions. In view of the need to monitor and develop the campus of the college, Camps Development Cell of Marangi Mahavidyalaya has been initiated.

AIMS AND OBJECTIVES:-

1. The goal of campus development is to create multipurpose environment that support the everyday life of the community in the best possible way when people study that corresponds to the changing need of the users and society now and in the future.
- 2 .To develop functionally suitable and conducive environment for students and faculty for academic and overall development.
3. To provide outcome based teaching learning environment of the 21st century in the college.
4. To collaborate and partner with industries and Entrepreneurship and incubation.
5. To provide world class environment that nurtures holistic development of students.
6. To develop state of the art ICT infrastructure for supporting online learning paradigms.
7. To create an eco-friendly environment in the college. A green campus is a place where environmental friendly practices and education combine to promote sustainable and eco-friendly practices in the campus.
